

Opportunities Week of 10/7/16

Making Yourself Competitive for Graduate School: Get insight from a panel of Stony Brook faculty about the admissions process. An overview will be included on GRE Scores, GPA/Grades, Writing Samples, Letters of Recommendation, Personal Statements, and Helpful Courses.

Event will be held on Wednesday, October 12th, 1:00-2:00 PM in the Career Center

The Harvard Catalyst Summer Clinical and Translational Research Program (SCTRP): The Harvard Catalyst is offering a Summer 2017 research program for undergraduate sophomores, juniors, and seniors. This is a mentored, summer research program, designed to enrich the pipeline of college students' understanding of and interest in pursuing clinical and/or translational research, as well as to increase underrepresented minority and disadvantaged college student exposure to research. This ten-week program runs from June 5-August 11, 2017.

In addition to mentored clinical/translational research experience, SCTRP students participate in weekly seminars with Harvard faculty and graduate students focusing on topics such as research methodology, health disparities, ethics, career paths, and the graduate school and medical school application process. Participants also have the opportunity to participate in offerings of other Harvard Medical School programs such as career development seminars and networking dinners. SCTRP students are expected to complete an abstract, paper and oral presentation of their summer research project.

Application deadline is December 21, 2016

For more info on SCTRP, visit <https://mfdp.med.harvard.edu/dcp-programs/college/summer-clinical-and-translational-research-program> or see attached flyer

New Visions For Public Schools Teacher Residency Program at Hunter College: Urban Teacher Residency is an 18-month certification program that trains, mentors and prepares the next generation of teachers to commit personally and professionally to the success of students. Together, experienced coaches from New Visions and teaching faculty from Hunter College work to prepare you to be the expert teacher you aspire to be.

This program is interested in individuals who are compelled to become agents of change and disrupt the cycle of poverty in New York City. They are training exception educators in: Biology, English, Mathematics, Chemistry, Earth Science, Special Education, and TESOL.

For more info, see www.nycutr.org or attached flyer

Pre-Health Advising Fall 2016 Events: Save the date! Pre-Health Advising will be hosting several advising events in the Fall 2016 semester

See attached flyer for a list of events.

Reminder: Graduate School Preview Day: Presented by the Center for Inclusive Education, the Graduate School Preview Day, The PhD: A Path to Success, gives students an opportunity to: meet with current graduate students and learn about "the other kind of doctor," learn about funding opportunities and academic support, network with graduate program faculty, learn about the admissions process from the Dean of the Graduate School and Admission Committee Faculty, and visit labs in your field of interest. The target audience is undergraduate and master's students who want to pursue a PhD. Underrepresented minorities are strongly encouraged to attend.

All students that attend will be eligible for a Fall 2017 Application Fee Waiver (\$100 value)

Friday, November 18th, 2016 in the Charles B. Wang Center

For more info see attached flyer, to register visit <http://ow.ly/KTs8300QC6k>

Healthcare, Research & Human Services Job & Internship Fair: Open to ALL students! Find clinical/non-clinical full-time, part-time, internship, research, volunteer, and gap-year opportunities! Network and many more! Perfect your resume, practice your employer pitch and come dressed to impress.
Friday, October 14, 2016 12:00-3:00 PM, SAC Ballroom A

Harvard Catalyst Program for Faculty Development and Diversity Inclusion

The Program for Faculty Development and Diversity Inclusion seeks to emphasize the recruitment and retention of a diverse clinical/translational workforce as a top priority throughout Harvard Catalyst in governance, programming, training and resource allocation.

● summer clinical and translational research program

Program Description

The Summer Clinical and Translational Research Program (SCTRP) is a ten-week mentored, summer research program designed to enrich the pipeline of college students' understanding of and interest in pursuing clinical and/or translational research, as well as to increase underrepresented minority and disadvantaged college student exposure to clinical/translational research: research that transforms scientific discoveries arising from laboratory, clinical, or population studies into clinical or population-based applications to improve health.*

In addition to a mentored clinical/translational research experience, SCTRP students participate in weekly seminars with Harvard faculty focusing on topics such as research methodology, health disparities, ethics, career paths, and the graduate school and medical school application process. Participants also have the opportunity to participate in offerings of other Harvard Medical School programs such as career development seminars and networking dinners.

Eligibility

Eligible participants are: undergraduate sophomores, juniors and seniors, particularly those attending Minority Biomedical Research Support (MBRS) and Minority Access to Research Careers (MARC) NIH-funded institutions, historically black colleges and universities (HBCU), Hispanic-serving institutions, and/or tribal colleges with baccalaureate degree programs, and/or alumni of the Harvard Medical School Minority Faculty Development Program and/or the Biomedical Science Careers Program.

Applicants must be U.S. Citizens or U.S. Noncitizen Nationals or Permanent Residents of U.S.

Program Length

The ten-week, Summer Clinical and Translational Research Program begins June 5, 2017 and runs through August 11, 2017

Financial Assistance

The Summer Clinical and Translational Research Program is a paid internship. Transportation is reimbursed up to \$400 toward the cost of traveling to and from Boston.

*National Center for Research Resources, NIH

Housing

The Summer Clinical and Translational Research Program provides housing for participating students.

Application & More Information

Applicants must submit: a completed application form, statement of purpose, short answer questions, resume/curriculum vitae, official transcript, and two letters of recommendation.

To receive an application, or for more information, please contact Danyellé Thorpe, Program Coordinator, at 617.432.1892 or pfdd_dcp@hms.harvard.edu. For more information visit: <http://www.mfdp.med.harvard.edu/>.

Deadline Dates

December 21, 2016: Delivery of completed application and all accompanying material to DICP office

February 24, 2017: Notification of 2017 SCTRP participants

Sponsor

Harvard Catalyst | The Harvard Clinical and Translational Science Center is dedicated to improving human health by enabling collaboration and providing tools, training and technologies to clinical and translational investigators. Founded in May 2008, Harvard Catalyst is a shared enterprise of Harvard University, its ten schools and its seventeen Academic Healthcare Centers (AHC), as well as the Broad Institute, MIT, Harvard Pilgrim Health Care, and numerous community partners.

Harvard Catalyst | The Harvard Clinical and Translational Science Center is supported by a grant from the National Center for Research Resources, part of the National Institutes of Health, and commitments from several of its partner organizations.

The Summer Clinical and Translational Research Program is administered by The Harvard Catalyst | The Harvard Clinical and Translational Science Center Program for Faculty Development and Diversity Inclusion in the Office for Diversity Inclusion and Community Partnership at Harvard Medical School.

The Office for Diversity Inclusion and Community Partnership (DICP) at Harvard Medical School (HMS) was established in 2002 to promote the increased recruitment, retention and advancement of diverse faculty, particularly individuals from groups underrepresented in medicine (URM), at HMS and to oversee all diversity activities involving HMS faculty, trainees, students and staff.

DICP's Minority Faculty Development Program (MFDP) offers consistent programming that is responsive to identified needs of individuals and institutions and serves as a nexus for collaborative work among HMS, HMS-affiliate faculty development programs and/or diversity/multicultural affairs offices. In addition, MFDP addresses issues of increasing the pool of minority and disadvantaged students interested in careers in science and medicine, and has built a three-pronged effort to encourage URM and disadvantaged students from all levels of the educational pipeline to pursue biomedical, STEM and health-related careers. Programs begin as early as the middle school level and carry on through the postgraduate level and involve curriculum development, teacher training, enhancing student research, and career development.

NEW VISIONS FOR HUNTER
PUBLIC SCHOOLS | COLLEGE
URBAN TEACHER RESIDENCY

CHANGE LIVES. TEACH IN NEW YORK CITY.

Urban Teacher Residency is an 18-month certification program that trains, mentors and prepares the next generation of teachers to commit personally and professionally to the success of students they serve. Together, experienced coaches from New Visions and teaching faculty from Hunter College work to prepare you to be the expert teacher you aspire to be.

Why Join UTR?

- ▶ An onsite, personal, experienced mentor teacher working by your side during your first year as a teacher, to help you acclimate to the classroom.
- ▶ Deferred tuition until your first year as a full-time teacher as well as health coverage and a yearly stipend.
- ▶ Job Placement assistance finding a teaching position in a NYC high-need school.
- ▶ Ongoing support from coaches and the residency community after you complete the program.
- ▶ Higher pay during your first year of teaching full time, because of the value of your residency experience.

“Based upon my experience hiring graduates of the program, I believe UTR-trained people are far better positioned to be successful teachers than any other group of new teachers with whom I have worked.”—

Phil Weinberg, Deputy Chancellor for Teaching and Learning at the New York City Department of Education
