

# TEAM SCIENCE WORKSHOP

## FOR EARLY CAREER RESEARCHERS

**The Office of the Vice President for Research, in partnership with the Alan Alda Center for Communicating Science, is pleased to present:**

### Team Science Workshop

**Thursday, December 10, 2020 at 11am-12:30pm and  
Friday, December 11, 2020 at 11am-12:30pm**

**Open to early career faculty. Participants must attend both sessions.**

This virtual workshop leverages the Alda Method® to strengthen faculty researchers' ability to innovate, collaborate, and communicate in interdisciplinary and/or transdisciplinary science teams. Topics include listening to co-create shared meaning, building trust through transparent communication, leveraging common ground to explain science, reframing messages together to overcome disagreement, and collaborating within a team to lead and follow. Participants are introduced to a communication planning tool designed to foster direct, transparent, and empathic communication among colleagues who bring different expertise, perspectives, and experiences to an interaction.

**[Click here to apply by November 16, 2020.](#)**

*This workshop is limited to 20 participants. Please apply early to secure your spot.*
